

Signant SmartSignals Integration: Adding eCOA to RTSM

Using Signant SmartSignals eCOA alongside our RTSM solution simplifies workflow for sites and eliminates unnecessary data reconciliation between systems. It also provides simplified working for the sponsor / CRO study team by streamlining operational processes, putting you in greater control of your clinical trial.

eCOA Manager

eCOA Web or App

HOW IT WORKS

- When a patient is first screened in RTSM, this automatically generates a patient record in our eCOA solution – eliminating duplication of effort for the study site.
- When eCOA data are collected for eligibility assessment, these are provided in real-time to RTSM to ensure that patients are not randomized to treatment until eligibility criteria are met. This reduces the risk of protocol deviations.

INTEGRATION BENEFITS

- Streamlines workflow by eliminating duplicate activities in multiple systems
- Reduces unnecessary data reconciliation activity and associated DCF requests
- Limits the potential of protocol deviations when inclusion criteria include run-in eCOA data

SIGNANT'S INTEGRATED SOLUTIONS INCLUDE

- A single project management point of contact, simplifying study team activity
- A single helpdesk for sites, participants, and sponsor/CRO study teams
- A single contracting entity

SIGNANT SMARTSIGNALS eCOA – THE INDUSTRY STANDARD

THE ONLY CLINICAL DATA CAPTURE SYSTEM THAT ADDRESSES THE FOUR Ss NEEDED FOR SUCCESSFUL eCOA IMPLEMENTATION: SOLUTION, SCIENCE, SCALE, AND SERVICE.

SOLUTION

Broadest eCOA application from simple to complex studies, ePRO to complex eClinRO

SCIENCE

Dedicated science and medicine specialists with decades of experience who ensure application of industry best practices and good measurement science to generate the highest quality clinical evidence

SCALE

We are currently supporting over 600 active eCOA studies, operating in 135 countries, and preparing and shipping nearly 1,500 eCOA devices worldwide each week - a scale few can match

SERVICE

We have an operational team of around 1,000 staff, including a dedicated logistics function, experienced project managers, and scale and translations management teams

eCOA EXPERIENCE

5,000+
CLINICAL TRIALS

1,500
eCOA DEVICES
SHIPPED PER WEEK

600+
LIVE eCOA
STUDIES

135
COUNTRIES
